To the Members of Crocker Securities, LLC:

I have audited the statement of financial condition of Crocker Securities, LLC as of December 31, 2004, and the related statements of operations and changes in stockholders' equity and cash flows for the year ending December 31, 2004. The financial statements are the responsibility of the Company's management. My responsibility is to express an opinion on these statements based on my audit.

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. I believe that my audit provides a reasonable basis for my opinion.

In my opinion, the financial statements referred to above, present fairly, in all material respects, the financial position of Crocker Securities, LLC as of December 31, 2004, and the results of its operations and its cash flows for the year ending December 31, 2004 in conformity with accounting principles generally accepted in the United States of America.

The information contained in Schedules I, II, III, IV, and V is presented for the purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by Rules 17a-5 of the Securities and Exchange Commission. Report of Independent Public Accountant

To the Members of Crocker Securities, LLC:

In planning and performing my audit of the financial statements of Crocker Securities, LLC, for the year ending December 31, 2004, I considered its internal control in order to determine my auditing procedures for the purpose of expressing my opinion on the financial statements and not to provide assurance on the internal control structure.

Also, as required by Rule 17a-5 (g) (1) of the Securities and Exchange Commission (SEC), I have made a study of the practices and procedures followed by Crocker Securities, LLC, including tests of compliance with such practices and procedures, and that I considered relevant to the objectives stated in Rule 17a-5(g), in making the periodic computations of aggregate indebtedness and net capital under Rule 17a-3(a) (11) and the procedures for determining compliance with exemptive provisions of Rule 15c3-3 (k). I did not review the practices and procedures followed by the company (I) in making the quarterly securities examinations, counts, verifications and comparisons, and the recordation of the differences for prompt payment for securities of Section 8 of Regulation T of the Board of Governors of the Federal Reserve System; or (iii) in obtaining and maintaining physical possession and control; of all fully paid and excess margin securities of customers as required by Rule 15c3-3 because the Company does not carry security accounts for customers or perform custodial functions relating to customer securities.

The management of the Company is responsible for establishing and maintaining an internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgements by management are required to assess the expected benefits and related costs of controls, and of the practices and procedures referred to in the preceding paragraph and to assess whether those practices and procedures can be expected to achieve the SEC's above-mentioned objectives. Two of the objectives of internal control and the practices and procedures are to provide management with reasonable but not absolute assurance that assets for which the company has responsibility are safeguarded from loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Rule 17a-5(g) lists additional objectives of the practices and procedures listed in the preceding paragraph.

Because of the inherent limitations in internal control or the practices and procedures referred to above, errors or fraud may occur and not be detected. Also, projections of any evaluation of them to future periods are subject to the risk that they may become inadequate because of changes in conditions or that the effectiveness of their design and operation may deteriorate.

My consideration internal control would not necessarily disclose all matters in internal control that might be a material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a condition in which the design or operation of the specific internal control components does not reduce to a relatively low level the risk that errors or fraud in amounts that would be material in relation to the financial statements being audited may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions. However, I noted no matters involving internal control that I consider to be a material weakness as defined above.

I understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish those objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on my study, I believe that the Company's practices and procedures were adequate at December 31, 2004 to meet the SEC's objectives.

This report is intended solely for the use of the Board of Directors, management, the SEC, the National Association of Securities Dealers, Inc., and other regulatory agencies that rely on Rule 17a-5(g) under the Securities Exchange Act of 1934 and should not be used for any other purpose.
